Hi I'm Jenny, a software engineer interested in creative frontend or fullstack work.

TECHNICAL SKILLS, LANGUAGES

Javascript (ES6), React, Jest,

HTML, CSS,

Git,

Ruby, Rails

TECHNICAL PROJECTS

jennychau.herokuapp.com/projects- I transferred and recreated my applications to be compatible with and accessible via my fullstack portfolio website.

Lab App - Sorts lab results, reasons for results

- Built with React
- Implemented semantic UI library

Enneadrink App - Personality quiz, journaling

- Built with React frontend, utilized React Router v.6
- Built with Rails backend, utilized RESTful API and object oriented programming (OOP)
- Configured user authentication (utilized BCrypt gem for encryption)
- Configured authorization to differentiate access to general info and user's private journal info
