As an RN (Registered Nurse) the joy of my career was working within brilliant multidisciplinary teams. These incredible humans and the collective passion to help each other kept me in the field. Bedside nursing was not a lifelong plan for me, but a path for me to gain professional skills and contribute to others' wellbeing. I developed resourcefulness, discipline, efficiency, and collaboration. I preceptored and won multiple Spirit Awards. And after 8 years, I learnt that my mind craved more creative, logical stimulation.
Thank you for viewing my resume.
